Dear Peter, Olav Chris, Carol, Ken, Camilla, and Rebecca,

It was such a pleasure having Ensemble Chaconne with Ken Pierce Baroque Dancers perform as part of our Performance Series on Saturday, January 26, 2008. The quality of musicianship was excellent and your knowledge and expertise in the various instrumentation, compositions, and dances was impressive. The music was enchanting and beautifully played, the dancing and period costumes were elegant and each one special, and the intersection of the music and dance was enlightening. The audience was transfixed and transported, and came away with a new understanding and appreciation of early music and dance, and all that it influenced in cultures around the world.

The passion and integrity that you bring to your music and dance, researched with such depth and performed with such professionalism and precision, made the evening a memorable and inspiring one for all.

Thank you for your efforts in making this performance such a success, and for helping us to bring great programming to the community!

Sincerely,

Claudia Thompson
